
Identity

Look in the mirror, take your time.

What do you see? Are there things about yourself that you don't like? Is there something you're thankful for about yourself?

Christians believe that God made everyone, and more importantly, that God loves everyone. No one is perfect, but each person is unique and special.

Place your finger on an ink pad and make your finger print on the large paper to show how unique you are. You can also print your finger print on a smaller card to take with you, to remind yourself of this. If you would like to, you can write a word to describe yourself and place it around the mirror.

Community Tree

Christians believe that God made everyone to be part of God's family. Every nationality, every culture, we belong together, and so we should care for one another. We are all different but we can work together as a school family.

Just like a leaf can't survive on its own without the tree, we need each other to learn and grow.

If you want to, choose a hand shape, write your first name and draw something about yourself as part of the school community. This could be a club you go to, something about your class, people you talk to or places you go to in your school. Then fix your hand shape onto the school Community Tree.

Look at the other names on the tree. What does it mean that these people are all part of your school community? How can you help each other?

Jigsaw Pieces

Each one of us is special. Together, we are all part of communities, whether they are friendships, in school, where we live, in teams...there are so many! Our words and actions affect other people. Christians believe that we have a choice, to affect people positively by helping others, or negatively.

Think about all the communities that you belong to: your family, the school, the city, the UK, even the whole world!

Find a blank jigsaw piece and think about people in your class or year group. Draw yourself and write your name on it. If you would like to, you could draw yourself using a special skill or talent that you have. Then join your piece to the school Community Jigsaw and think about how you can help or encourage others by being you and using your skills and talents.

Local Community

Who are our neighbours? Can we pray for people we don't know?

We see many people during our day...our families, friends, classmates, teachers, people living near us in houses or on the street, people who work in the shop nearby. Everyone in our local community has needs. Christians believe that we need to 'love our neighbours'. That means people around us, not just people who live next door!

Think of someone in your local community that you would like to pray for, perhaps they need help or encouragement. Write a prayer or a wish for them on a post-it note and place it in the window outline on the cardboard building. Think about what you could do to help your local community.

World Community

How can we help the world community?

Look at the world map and think about the things that are going on around our world. Maybe you've heard about some of these on the news.

Think about any family or friends you may know in another part of the world, or perhaps a place that you've been to.

Write a prayer or thought for someone you know or about something that is happening in the world onto a post-it note and stick it onto the map, asking God to help.

World Community

How can we help the world community?

Look at the world map and think about the things that are going on around our world. Maybe you've heard about some of these on the news.

Think about any family or friends you may know in another part of the world, or perhaps a place that you've been to.

Make a person out of one pipe cleaner to represent a person or a place that you would like to pray for. As you're making it, say or think of a prayer or thought for them, asking God to help them. Then hang up the person onto the display.
